Calgary Bull Sale Was Great Success

Calgary's annual bull sale of pure bred bulls, which has become famous throughout the Province for the high quality of the animals, closed last week and was a great success, both from point of attendance and prices realized. The total receipts were \$146,845, or an average of \$225 for the 651 animals disposed of. Buyers were present from all all over the Province, who are anxious to still further improve their purebreds. Shorthorns appeared to be the favorites, when 327 went under the hammer at an average of \$223.85; 221 Herefords averaged \$246.35; 28 Aberdeen-Angus averaged \$188.16; 5 Galloways averaged \$170.

This year prices while somewhat lower than last on all breeds, Shorthorn and Galloways came much nearer last year's prices than Herefords or Angus breeds, the Hereford average being nearly \$100 and the Angus \$115 below last year's average. Whether this is owing to the better average quality of the Shorthorns as against the Whitefaces or that cattlemen in Alberta are showing this year a marked preference for the former breed is hard to determine. Probably both reasons have tended to contribute to the result. That the average on all breeds is \$225—is very low, when one considers the prices of steers at the present market rates, and the improbability of much lower figures in beef for some time to come, is certain, and is probably the result of an uncertain feeling on the part of a large portion of the cattle raisers of Alberta and the west generally with regard to the stability of prices in the next few years.

Didsbury district was well represented by twelve purchases, which amounted to \$2,410. This should assist materially in improving the already good stock in this district. With the price of all kinds of dairy produce liable to remain high for some time to come, the introduction of improved purebred stocks must result in better returns for the capital invested in dairy herds by the farmers, who realize that purebred animals, in the final analysis, are more profitable than common stock, which consume as much feed and need the same attention as the best.

Following are the names of the buyers of this district, with the name and price of each animal:

GALLOWAYS.
Gust. L. Johnson—Beau Blackie of Perivale, \$175.

HEREFORDS.
James Sheils—Aloha Briton 3rd, \$135.

John P. Burns—Bruce 30th, \$310
T. N. Lynch—Buster Bruce, \$220

SHORTHORNS
Ed. Liesemer—Ray Northman, \$210.

Abe Snyder—Understudy, \$145.
O. W. Stauffer—Red Lan, \$105.

ABERDEEN-ANGUS.
J. N. Paton—Roosevelt, \$310.

W. J. Fulkerth—Hand Hills Rufus, \$145.

L. B. Fulkerth—Cheltwick Pathfinder, \$115.

L. B. Fulkerth—Come Out, \$155.

L. B. Fulkerth—Donald H., \$110.

An Eastern paper says its Board of Trade is nearly dead for the want of "pep." There is some talk of applying this rejuvenator to Didsbury's late organization.

Capital and Reserve, \$8,600,000
Total Assets, Nov. 30th, 1918, over \$153,000,000

Northern Alberta S. S. Convention

An Interdenominational Sunday School Convention and Leaders' Institute for Northern Alberta will be held in Edmonton on May 2nd, 3rd and 4th, 1919. The convention will take the form of departmental conferences, when the needs and aims of each department of Sunday School work will be discussed by those especially interested in that department.

The Leaders' Institute for leaders of teen-age boys and girls is being planned to meet the special needs and difficulties of these two very important departments. The organization and carrying out of the Canadian Girls in Training and Canadian Standard Efficiency Training programs for boys' and girls' clubs will be fully discussed.

Boys and girls are presenting a challenge for leadership to all thoughtful men and women, and the challenge must be squarely met. Everyone interested in boys and girls is asked to remember the dates of the Convention and Institute, and plan to spend May 2nd, 3rd and 4th, 1919, in Edmonton, Alberta.

Programs of the Convention and Institute will be published shortly.

Thrift Stamps Beat the Money Boxes

The children's money box on the mantel shelf has, in the past, done good work, having gathered in tens of thousands of dollars, which had it not been there, would never have been saved. To many generations it has been one of the best object lessons of the value of saving. It has taught the lesson of thrift better than almost any teacher could have done.

But the money box, though it has rendered splendid service in the past, has its limitations. All that it does is to take care of the pennies, the dimes, or the 25-cent pieces preventing them for a time being squandered. But, in comparison with labor saving devices, its chief defect is that while it holds money, it does not enable the money to earn anything.

This is where War Savings Stamps have a decided advantage over the money box. As soon as \$4 is put into one of these it begins to earn at the rate of 4 1-2 per cent compounded half-yearly. This means that if allowed to remain in Stamps it would double itself within less than fifteen years. Money put into a box and allowed to remain there would not be spent, but it would earn nothing. The moral is—buy War Savings and Thrift Stamps and let your savings work.

DON'T FORGET THE WAR VETERAN WHEN YOU HAVE A JOB TO OFFER

Printed matter

If Sleeplessness Is Your Trouble Read This

Sleeplessness is a warning of forces at war within the body—all is not harmony—something needs correction.

Nine times out of ten the body is loaded with the poisons of half eliminated and half digested food. Brain and nerves are irritated, sleep is impossible.

No prescription ever formulated produces the rapid results of Dr. Hamilton's Pills.

They flush every impurity from the body, keep every organ working well, remove the evil effect of lost sleep, and set you up in a few days.

Try Dr. Hamilton's Pills today, see how much better you feel, see how much easier it is to face the day's work.

Your blood is nourished, your nerves feed with new vital power, vigor and health is sent to every part of your system.

It's because Dr. Hamilton's Pills make each organ do the work Nature expects of it, because it ensures harmony, health and vigor to the system, that it cures sleeplessness, languor, depression and nervousness.

Isn't there a reason why you should use Dr. Hamilton's Pills? Sold in 25c boxes by all dealers.

Carmen's Messenger

— BY —
HAROLD BINDLOSS

WARD, LOCK & CO., LIMITED
London, Melbourne, and Toronto

(Continued)

He imagined that Telford or another of the gang had sent the telegram, and sat down when Pete came in. He heard the wind among the pines and the humming of the telegraph wires, but for a time this was all. Then a faint throbbing came up the valley and got louder until he could distinguish the snorting of a locomotive.

The snorting stopped, a bell began to toll, and with lights flashing the cars rolled past the shack. Foster waited a moment or two, standing at the window, and then as the conductor called "All aboard" saw a man run along the line and jump on the step of the end car. Then, beckoning to Pete, he dashed out and got on board as the train began to move.

It was with a thrill of triumph he sat down in a corner as the cars gathered speed. They would not stop for some time and the game was in his hands at last. The long chase was ended; he had run Daly down.

XXXI

Daly Solves the Puzzle

The train was speeding along the hillside when Foster, who took Pete with him, walked through the rocking cars. As he crossed the platforms between them he met an icy wind and saw the dark pines stream by. It was obvious that the track was nearly level and the train running fast, for dusky woods and snowy banks hung back a rapid sporting and a confused roll of wheels. There were not many passengers and nobody seemed to notice Foster, until as they entered a car near the end a man raised a newspaper he was reading so that it hid his face. As they left the car Foster thought he heard a rustle, as if the paper had been lowered, but did not look round. The thing might have no meaning and he did not want to show that he was anxious.

He felt anxious but cool. Daly was the cleverer man and the game they must play was intricate, but Foster thought he had the better cards. The last car was empty except for two women, and leaving Pete there, he went through to the smoking compartment at its end. It had only one occupant, who looked up as he came in, and he calmly met Daly's gaze. The fellow had his hand in his pocket and his face was rather hard, but he did not show surprise or alarm.

"Well," he said, "we have been looking for one another for a long time and at last have met."

Foster sat down opposite. "That's so. When we began, you were looking for me, but since then things have, so to speak, been reversed. I've followed you across England and much of Canada."

"I've wondered what accounted for your boldness."

Your Eyes

Granulated Eyelids, Eyes inflamed by exposure to Sun, Dust and Wind quickly relieved by Murine Eye Remedy. No Smarting, Just Eye Comfort. At Your Druggists or by mail 60c per Bottle. For Book and the Eye free write Murine Eye Remedy Co., Chicago.

"It looked as if you knew, but if you don't, I'm going to tell you," Foster replied. "But I'd sooner you took your hand out of your pocket. It would be dangerous to use a pistol, because my man's in the car. Then I left a plain statement of all I know and surmise about you, with instructions for it to be handed to the police if I don't come back."

Daly removed his hand and took out a cigarette.

"You're not such a fool as some of my friends thought. I suspected this for some time."

"We'll get to business," Foster rejoined. "I want to get it finished, although I don't think we'll be disturbed."

Daly gave him a keen glance, which Foster did not understand then, and the latter resumed: "How did you find out enough about Featherstone to enable you to blackmail him?"

"I was secretary to the man he robbed; as a matter of fact, I stole one or two of his private papers. I don't know that I meant to use them then, but was afterwards in need of money and saw how it could be got. The documents prove your partner's offence."

"You began by extorting money, but your last object was to suppress the evidence my partner could give about the cause of Fred Hulton's death."

"Ah!" said Daly. "I wonder how much you or Featherstone know about that. As there are no listeners, we can be frank."

"Very well. You claim to have documents that give you some power over Featherstone; I have others that give me power over you. Have you got yours here?"

Daly smiled. "I have not. They're kept where nobody but myself could find them."

"I see," said Foster. "Any money you could extort from Featherstone was to be your private perquisite and not shared with the gang? Well, I've brought my documents for you to examine. This is a traveller's circular cheque for yourself, and this an ordinary bank cheque for another man. Taken alone, they don't prove very much, but I'll try to show how they link up with other matters."

He related how Carmen had given him the packet and his adventures in Newcastle, and when he finished Daly nodded.

"On the whole, you don't argue it badly."

"I expect a lawyer prosecuting for the Crown would argue it better, particularly if I was ready to go into the witness box. Then, of course, there's Featherstone's evidence."

For a moment Daly looked alarmed, but recovered his tranquillity without much effort, and Foster saw he had to face his first serious difficulty, though there was another. If Daly knew how little Lawrence could really tell, it would be hard to deal with him.

"Something depends on the importance of Featherstone's evidence."

"Your accomplice thought it important, since he tried to throw him down the elevator shaft," Foster rejoined. "Anyhow, Featherstone saw the man who killed Fred Hulton."

Daly's smile rather disturbed him. "Then it's strange he said nothing about it at the inquiry, and when he was in the factory passage he spoke to the man he saw as if he was the night guard."

"That's so. You probably know more about the methods of the police than me, but I understand they now and then keep something back, with an object. Then Featherstone is not a fool. He was in the light and had no pistol. The man at the office door was between him and the yard, and could have got out by the back. Nobody would have heard a shot."

There was silence for some moments while Daly pondered this, although Foster imagined he had carefully weighed the thing before. Then he asked abruptly: "Did your partner think he saw me?"

"No," said Foster, who resolved to tell the truth.

Somewhat to his surprise, Daly made a sign of acquiescence. "Very well! You do know something, and I'll tell you what happened. There's not much risk in this, because no judge would admit as evidence something you declared you had been told. Besides, I'll own that it's an unlikely tale. I was not at or near the factory that night, but I had done some business with Fred Hulton. The lad was a gambler and I'd lent him money; as a matter of fact, I never got it all back. However, a man who now and then acted as my agent learned something about the customs of the factory and went there the night he met Featherstone. But he did not shoot Fred Hulton."

"Then how was the lad killed?"

"He shot himself; in a way, by accident."

Foster looked at Daly with ironical surprise. "Your friends deal too much in accidents! It was by an accident Walters left Featherstone on the snow couloir."

"It doesn't matter if you disbelieve me; this is what happened," Daly rejoined. "My friend—we'll call him the man—went to the office late in the evening and after some talk, covered Hulton with his pistol. The lad had had some trouble about his debts, because the old man would have fired him out of the business if he'd heard of them, and his nerve wasn't good. He opened the safe when he was told and the man took the bonds and went out of the office,

leaving Hulton in his chair. We don't know what the lad had thought, but perhaps he saw he would be suspected or was ashamed of not showing more grit. Anyhow, when the man was on the stairs Hulton came up behind and told him to stop. He had a pistol, but looked strained and nervous, and the other, who had put his away, made a rush at him. Hulton slipped on the steps, his pistol went off, and when he rolled to the bottom the other saw he was dead."

Foster was silent for a time. The story was, on the whole, plausible, and although he did not see why Daly had told it to him, he thought he spoke the truth. So far he had been clearing the ground and had not reached his object, but Daly showed no inclination to hurry him. They were not likely to be disturbed, and although the rocking of the cars and throb of wheels indicated that the train was running fast, the next station was some distance ahead. There was moonlight outside and he saw towering rocks and masses of dark trees roll past.

(To Be Continued)

Cooking by Electricity

Success Has Impressed Public With Advantages of Method

For the last four years the practical development of electric cooking in Great Britain has been confined by war necessities to public kitchens and the canteens in munition works and other industrial establishments. This field is, however, so wide, so important, and so exacting in itself that the success of cooking by electricity for large numbers of people has impressed the public deeply with the advantages of this method. During this period, moreover, the domestic electric cooker has not been altogether neglected.

Improvements in design have been introduced by British makers, and the new types now being put on the

market represent a distinct advance upon even the high pre-war standard. It should not be forgotten that the application of electricity to cooking was more scientifically studied in Great Britain than anywhere else. It was in Great Britain that the experiments were made which proved that the electric oven, when properly designed and used, reduced the shrinkage of meat in roasting and so rendered the process much more economical and much more hygienic. Similar experiments in other kinds of cooking have established the claim that electricity produces more digestible and wholesome results than any other source of heat; and as so much concern is now being paid to national health this claim is not likely to be overlooked. In electric heating also British engineers have been in the foreground with designs which achieve the most efficient results. Here the problem ranges from the domestic electric fire through many forms of industrial heating (such as glue pots, japanning ovens, drying ovens, and so on) to the electric furnace for the melting and refining of steel, brass, and other metals.

The Shoal Lake, Winnipeg, pipe line has been completed, and Winnipeg will now get Shoal Lake water, after five years of work and an expenditure of \$14,000,000.

The man who goes to the bottom of things is usually the man who gets to the top.

A Kidney Remedy

Kidney troubles are frequently caused by badly digested food which overtaxes these organs to eliminate the irritant acids formed. Help your stomach to properly digest the food by taking 15 to 30 drops of Extract of Roots, sold as Mother Selgel's Carative Syrup, and your kidney disorder will promptly disappear. Get the genuine.

Ship Butter to New York

Winnipeg, Man. —Manitoba creamery butter is still being shipped to New York, L. A. Gibson, dairy commissioner, reports. A carload was graded and dispatched on its journey, realizing about 60 cents per pound to the consigners.

The board of education of Port Arthur has acquired the property at the corner of Red River road and Pine street for a new school site. The property has a frontage of 266 feet on Red River road and 477 feet on Pine street, and the price paid was \$8,950.

"Which is the most delicate of the senses?" asked the teacher.

"The touch," said young Jones. "How's that?" asked the teacher, and young Jones explained. "Well, when you sit on a pin, you can't see it, you can't hear it, you can't taste it, but it's there."

67 YEARS OF GROWTH

In the early days the founder of this business made a few gross of matches a day, and sold them himself, driving his horse and wagon as far as Toronto. Today, from automatic machines, 70,000,000 matches a day are turned out to keep Canada's home fires burning. And not matches alone: indurated fibreware, household helps, and a host of paper products have been added to this line.

The House of Eddy

has become an institution which touches the daily life of the Canadian public in a thousand different ways.

There is a reason back of this steady and consistent progress. Business institutions do not grow to such proportions by accident. It takes real merit to accomplish such a result; merit in the goods themselves, and in the concern which is back of them.

When you buy matches, see that Eddy's name is on the box. When you are in need of some of the familiar household helps, such as a washtub, a pail, or a washboard, remember that there is an Eddy product which will fill your needs, made from light and durable Indurated Fibreware. Remember also that Eddy's Paper Specialties are standard.

Our Prestige is your Safeguard
when you buy Eddy Products

Didsbury Public School Report

Below is the result of the test examinations in the senior room of Didsbury Public School. The names are in order of merit and are classified as RECOMMENDED and NOT RECOMMENDED; that is, those whose marks were above the pass mark, and those that were below it. They are classified in this way for the benefit of the pupils and also their parents, who it is hoped will cooperate with the members of the staff in making the best possible use of the two months of school yet remaining before the final examinations.

RECOMMENDED—Ruth Brubacher, Marjorie Good, Winnie Moyle, Lois Clemens, Dahlia Smith, Stanley McLean, Irene Walder, Minnie Arlenson, Nelly Kent, Thelma Sexsmith, Pearl Ruby, (Orval Paton, absent owing to illness).

NOT RECOMMENDED—Ina Edwards, Orlando Hehn, Ida Gertz, Earl Ruby.

GRADE VI.

RECOMMENDED—Marjorie White, Tom Reed, Adella Hunsperger, Bernice Murdock, Granville Paton, Edgar Klaholdt, Fern Stauffer, Orwill Gieger, Rossie Singleton.

NOT RECOMMENDED—Hugh Morton, Hazel Bricker, George Bricker, Frank Burrill, Allen Storie, Mabel Hardy, Lillian Mack, Edith Anderson.

A. E. KERR, Principal.

Following is the report of the Easter exams., with names in order of merit:

GRADE IV. (GIRLS)—Aleda Huget, Reta Weber, Eveleth White, Valva Franklin, Orpha Liesemer, Hilda Gertz, Myrl Good, Dolores Schmelke, Edith Osmond, Pearl Miller, Audrey Patteraon, Edith Bricker, Pauline Walder, Rosa Moore, Ella Bartz.

Unclassified, due to absence: Grace Brubacker, Muriel Brown.

GRADE III. (BOYS)—Roy Herman,

Ernest Traub, Elwin Murdock, Melvyn Huget, Howard Evans, Harley Traub, Lloyd Bender, Alec Cook, Howard Herber, Samuel Miller, Frank Remple, Gordon Murray, Charlie Reed, Lumm Singleton, Roland Freeman.

Unclassified: Robert Rood, Irwin Bartz, Willie Morton, Wallace Geiger, Wayne Stauffer, Howard Pearce.

R. V. WEBER, Teacher.

GRADE V.—Honors: Grace Hunsperger. Pass: Emma Walder, Laura Liesmer, Ada Simon, Lucille Smith, Lionel Timmins, Carrie Timmins, Helen Reed, Tena McIntyre Wm. Wood. Below Pass: Walter Herman, Evelyn Liesemer, Allene Schmelke, William Wrigglesworth, Kathleen Osmond, Thomas Morton, Jennie Ness, Donald Martin, Clifford Mortimer, Minnie Roeth, Laura Smith, James Taylor, Nyle Hunsperger, Russell Berscht, Henry Anderson, Clarence Anderson, Willie Taylor, Elsie Bartz, Wm Burrell.

GRADE IV.—Honors: Elmer Evans. Pass: Arthur Reiber, Ellwood Evans, Albert Arlenson, John Freeman, Roy Guy. Below Pass: Howard Burrell, Nelson Moore, Peter Remple, Walter McCoy, Elbert Singleton, Donald Rood, Hugh Wood, Peter Nowak, Peter Dyck, Joseph Taylor, George Hardy.

Z. LIESEMER, Teacher.

A Breeze from Oregon

The following letter was received at The Pioneer office last week from one of our old and respected subscribers, who left Didsbury last month for an extended visit to friends and relatives in Oregon, and we hope to see him back again to Sunny Alberta in the near future:

Corvallis, Oregon,
April 8th, 1919.

Mr. H. E. OSMOND,
Didsbury, Alta.

DEAR SIR—We arrived here on the 25th, after a pleasant trip, during which we saw lots of green wheat fields, which was certainly a great change from the

now-covered fields of Alberta. Every thing is looking green out here; flower are out in full bloom and cabbage plants growing which were set out last fall. Cherry and peach trees are loaded with blossom.

The weather is quite cool, and at the present time we are having some rain.

We are all well. It is reported that the flu has started again, but hope it will not become serious.

Yours truly,
ARNER HUNSPERGER

In the Canadian casualty list in Thursday's papers, the name of S. E. Edgerton of Didsbury is published as having died in Canada. So far as known he was not a resident of the town.

CUTICURA HEALS RASH ON CHILD

On Body and Face. Red and Itchy. Cried For Hours. Lasted a Year.

"A rash started all over my little girl's body, and she had some on her face. It started in a pimple that was full of water, and it got red and itchy. She cried for hours. This trouble lasted a year."

"Then I started with a free sample of Cuticura Soap and Ointment. I bought more, and I used four cakes of Soap and three boxes of Ointment which healed her." (Signed) Mrs. Dora Langly, 1032 Gertrude St., Verdun, Que., August 11, 1918.

The Cuticura Toilet Trio Consisting of Soap, Ointment and Talcum is an indispensable adjunct of the daily toilet in maintaining skin purity and skin health.

For free sample each of Cuticura Soap, Ointment and Talcum address post-card: "Cuticura, Dept. A, Boston, U. S. A." Sold everywhere.

EDITORIAL

National Getting Together

No.3.—The Western Viewpoint

The present day Western viewpoint in regard to matters which are the subject of sharp differences of opinion between East and West, is the culmination of conflicting views on numerous issues covering a period of years, and has not been arrived at hastily. It has its foundation on a deep-rooted conviction that the East looks upon the West as the home of an inferior people, a lot of wild agitators who are ready and willing to destroy Eastern industry to gain their own ends, a conviction that the East acts on the principle that the West should be humbly thankful for anything the East may see fit to grant it. This conviction has resulted from past events, some of which it may be well to refer to briefly.

As pointed out in a previous article, the East holds the view that it built the C.P.R. for the benefit of the West, and that the East has borne the burden of the national cost of that undertaking. The West, on the other hand, points to the fact that it is paying its full share of the cost of the cash grants made to the C.P.R., that the West contributed the whole of the land grants which were many times more valuable than the cash grants, that upon the West was laid the whole burden of the tax exemptions granted that system, and that for many long years the West was compelled to pay much higher freight and passenger rates than were imposed on the East.

The West feels that the Eastern provinces, while enjoying full possession of their own natural resources, withhold these from the Western provinces, while at the same time the federal authorities have done little or nothing to develop those resources beyond its free homestead policy. The result is that the West is suffering because its coal, oil, forest, water power, and other natural resources have not been developed, and Western people are compelled to import at great expense necessities of life

which could be produced in the West.

Particularly does the West feel bitter over the treatment accorded it in connection with the customs tariff. The West does not desire to destroy or even embarrass the manufacturing industries of the East, but it does feel that the East is taking an undue advantage of the tariff protection afforded their manufactures to impose heavy burdens on Western producers, and that, while accusing the West of a desire to destroy Eastern industry, the East itself is quite careless of the effect of the tariff on all Western development and prosperity. While this feeling has existed for some time, it did not become general in the West until the East, at the behest of the manufacturers, defeated the reciprocity agreement which dealt principally with the natural products of and markets for the West and hardly touched manufactures at all. The attitude of the East on this question is regarded as having been absolutely selfish.

Finally, the West resents the habitual attitude of mind in the East which accuses Western people with lack of patriotism and open disloyalty because they, as free Canadian citizens, in a legitimate and constitutional manner, advocate and support certain policies which the East does not like.

On the other hand, the West is sick and tired of the perpetual race and creed quarrel which exists between Ontario and Quebec, and which, for partisan purposes, is dragged to the very forefront of one group of politicians or another group whenever any great national policy is to be determined at the polls, and the issue is thereby switched from the main track and the national development and welfare of all Canada bedevilled. The East may enjoy this style of administering Canada's affairs, but the West has come to recognize that it is the basic cause of the slowness of Canada's growth in population and national development and largely responsible for the lack of any permanent, well considered national policy.

In the management of their own provincial affairs, the people of the West have shown themselves energetic, progressive and business-like. They have grappled with and solved exceedingly difficult problems, the solving of which rested with themselves. It has only been in connection with problems, the solving of which rested with the federal Parliament, in which the East has the preponderating power, that the West has found itself faced with a stone wall of obstacles. If this situation had only been faced occasionally, it might have been set down to accident, or lack of understanding, but because it is a chronic condition, repeated over and over again, and lasting in character, the West has come to the conclusion it is the result of deliberate and selfish intent. On no other ground can the West explain, for example, the readiness with which tens of millions of dollars are voted for Welland and St. Lawrence canal betterments and harbor improvements in the East, while the West is forced to fight every inch of the way to secure a Western outlet through Hudson's Bay.

Next week an endeavor will be made to point out some steps which should be taken to reconcile the differences between East and West and bring the people closer together, something which must be done if Canada's progress is not to continue to be retarded, its development and prosperity checked, and its future clouded with doubt, and even danger to the permanence of confederation.

Minard's Liniment Cures Burns, etc.

There is no good and sufficient reason why you should mind your own business if other people will pay you more for minding theirs.

Piles Cured in 6 to 14 Days
Druggists refund money if PAZO OINTMENT fails to cure itching, Blind, Bleeding or Protruding Piles. Stops Irritation, Soothes and Heals. You can get restful sleep after the first application. Price 60c.

New Flour Mill for St. Boniface
Winnipeg, Man. — The Clark Milling company, of Minneapolis, is planning to convert the plant, formerly run by a mineral concern in St. Boniface, into an up-to-date flour mill, with an initial capacity of 1,250 barrels per day. Permission to operate a spur track belonging to the Greater Winnipeg water district will be asked for, and this will likely be granted.

A rich deposit of asphalt has been discovered in the Philippines located so near the water's edge that no inland transportation whatever is necessary.

Threatened With Paralysis

Severe Nervous Headaches and Numbness of Hands and Feet Was Most Alarming, but Satisfactory Restorative Treatment Was Found

Port Haney, B.C., April 15.—This very interesting statement from Mrs. Stinson in regard to her cure is vouched for by her pastor, Rev. G. H. Findlay. Hers was a most extreme case of nervous exhaustion, and the symptoms, pointing toward paralysis, were most alarming.

Fortunately, Mrs. Stinson heard of Dr. Chase's Nerve Food while there was time to set up the building-up process, and by the persistent use of this food cure has obtained restoration.

Mrs. H. Stinson, Port Haney, B.C., writes:

"I have been very sick with nervousness, and this trouble seemed to settle in my head. I had nervous headaches, numbness in my head, and also in my hands and feet. I had a pain around my heart all the time. I read in Dr. Chase's Almanac about the Nerve Food, and the first box I took helped me. This treatment has been of great benefit to me, and it is the only thing that had done me any good."

Rev. G. H. Findlay, Port Haney, B.C., also writes: "This is to certify that I know Mrs. Stinson, and vouch for the facts as stated above."

Here is another letter of special interest to persons suffering from nervous headaches:

Mr. Ernest Page, Killarney Lake, Alta., writes:

"I want to tell you how much good Dr. Chase's Nerve Food has done me. I suffered from severe headaches, from which I could get no relief. I went to a doctor, and he gave me some pills, but they didn't do me any good. Finally I turned to Dr. Chase's Nerve Food, and am glad to say that two boxes completely cured me." Certified to by Leger E. Roy, J.P., Chauvin, Alta.

Dr. Chase's Nerve Food, 50 cents a box; a full treatment of six boxes for \$2.75; at all dealers, or Educational, Bates & Co., Ltd., Toronto. Do not be talked into accepting a substitute. Imitations only disappoint.

The Chinese government is preparing to begin an aerial transport and mail service, and has appointed General Ting, the director of the Peking-Suiyuan railway, to be director of the Chinese aerial service.

A GOOD MEDICINE FOR THE BABY

Nothing can equal Baby's Own Tablets as a medicine for little ones. They are a laxative, mild but thorough in action, and never fail to relieve constipation, colic, colds and simple fevers. Once a mother has used them she will use nothing else. Concerning them Mrs. Saluste Pelletier, St. Damas des Archaies, Que., writes: "I always keep a box of Baby's Own Tablets in the house. They are the best medicine I know of for little ones and I would not be without them." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

The large Doukhobor colony at Cowley west of Lethbridge, Alta., are bargaining for more land to add to the colony.

CHILDREN NEED HELP

Spanking doesn't cure bed-wetting—the trouble is due to weakness of the internal organs. My successful home treatment will be found helpful. Send no money, but write me today. My treatment is equally successful for adults, troubled with urinary difficulties. MRS. M. SUMMERS, Box 42 Windsor, Ont.

War Boats Sold

Victoria, B.C. — Eight of the 27 wooden steamers built on the Columbian coast to the order of the imperial munitions board since arrival in the United Kingdom have been sold to the French government, it is learned here. They are the War Yukon, War Nootka, War Songhee, War Puget, War Selkirk, War Cariboo, War Comox and War Masset.

The last of the imperial munitions board fleet to be completed here, the War Squash, has left port on her maiden voyage to the United Kingdom.

Unless worms be expelled from the system, no child can be healthy. Mother Graves' Worm Expeller is the best medicine extant to destroy worms.

It is reported from Helsingfors that the Bolsheviks have sent back to Germany and Austria 2,000 prisoners of war who have been "specially trained for Bolshevik propaganda work." It is also stated that 5,000 prisoners of war have been enrolled in the Red Army.

Minard's Liniment Relieves Neuralgia.

A treeless farm is all right for raising crops, but a lot of beauty is lost. There should be a few good shade trees near every house.

The use of Miller's Worm Powders insures healthy children so far as the ailments attributable to worms are concerned. A high mortality among children is traceable to worms. These sap the strength of infants so that they are unable to maintain the battle for life and succumb to weakness. This preparation gives promise of health and keeps it.

An Australian inventor has patented a method for producing rain by raising large X-ray bulbs by balloons into higher strata of air that are filled with moisture.

A Cure for Fever and Ague.—Disturbance of the stomach and liver always precede attacks of fever and ague, showing derangement of the digestive organs and deterioration in the quality of the blood. In these ailments Parrot's Vegetable Pills have been found most effective, abating the fever and subduing the ague in a few days. There are many who are subject to these distressing disturbances and to these there is no better preparation procurable as a means of relief.

Experienced Farm Laborers Needed

Winnipeg, Man. — More than 400 experienced farm laborers are needed at once, according to J. A. Bowman, of the department of agriculture. Farmers will be at work on the land in Manitoba this week in the advanced districts, reports from which state that the soil is about ready for farm operations.

Utility of Assassination

A man, razor in hand, was caught by his wife assassinating not an enemy, but a corn—what he needed was Putnam's Corn Extractor; it's safe, painless and sure. Try "Putnam's"—cures so fast, 25c at all dealers.

Thrift Hint for Farmers

Old-fashioned Method of Gleaning a Paying Proposition

Judging by a thrift story from Canada, says an American paper, harvesting wheat by machinery, an economy on a large scale, nevertheless leaves something for the old-fashioned gleaner to gather afterward. The tale told of two girls in Saskatchewan who asked permission of a farmer to go over his stubble field with rakes. From sunrise to sunset the girls raked the stubble and at the end of the day the farmer was surprised to see that they had gathered a sizeable stack of wheat; in four days they gathered gleanings which, when thrashed, yielded them \$315 worth of wheat. In another county two girls who heard of this successful experiment got similar permission from a neighbor, and went over some 160 acres of stubble. The result was about 150 bushels of wheat.

"And you call yourself a lover of peace!" said Mr. Rafferty. "I do," answered Mr. Dolan. "After intentionally dropping the brick on Casey?" "Yes, I've never known Casey to be so peaceful as he was just after I dropped the brick." — Washington Post.

Do you shave with a saw?

FOOLISH question No. 11991. Maybe. But compare for a moment the illustrations above. They show pretty well what we're driving at that is, unless a blade is stropped regularly it develops an edge very like a saw, and causes that "pulling" and after-smarting of which you complain.

Not so with the AutoStrop Razor. For the self-stropping feature, you see, reforms the saw-like edge that results from shaving, and provides you with a sharp blade for every shave. The beauty of it is you don't have to remove the blade from the razor to sharpen it, nor do you have to take the AutoStrop Razor apart to clean it. From first to last—stropping, shaving, and cleaning—the blade remains in the razor.

Razor — Strop — 12 blades — \$3

Fewer Settlers During March

Winnipeg. — Immigration returns for the month of March, 1919, show a fall in the numbers of settlers admitted to Western Canada in comparison with the same month last year. During March this year, the total number of admissions into all ports of the western district, from Port Arthur to Kings Gate, was 3,227. Last year there were 4,041 in that month.

Effects coming in last month were valued at \$528,436. The wealth of the settlers this year was \$1,012,248, while last year it was \$1,741,422.

We build our character by the bricks of habit that we pile up day by day. Each seems a little thing, but before we are aware of it, we have shaped the house we live in.

Will Handle
Land Settlement

Soldier Settler Will Be Practically Outfitted by Board

Prince Albert, Sask. — Soldiers and others here are greatly elated at the decision of the soldiers' land settlement board to establish an office here to handle land settlement for soldiers in northern Saskatchewan where mixed farming is carried on extensively. The decision of the Canadian Northern Railway to construct a line to run 25 miles north-east from the city is partly responsible for the decision as this road will open up a tract of country well adapted for soldier settlement. The board will interview soldier settlers as to their qualifications to go on the land. It will have an expert valuer, who will pass on the worth of the lands which soldiers may wish to purchase under the government aid scheme. The soldier settler will be practically outfitted by the board so far as farming is concerned, and will be protected in his purchases against cupidity on the part of private firms which might wish to take advantage of their inexperience as farmers and stockmen.

I was cured of Acute Bronchitis by MINARD'S LINIMENT.

I was cured of Facial Neuralgia by MINARD'S LINIMENT.

Springhill, N. S. WM. DANIELS.

I was cured of Chronic Rheumatism by MINARD'S LINIMENT.

Albert Co., N.B. GEO. TINGLELEY.

She laid the still white form beside those that had gone before. No groan, no sigh, burst from her. Suddenly she let forth a cry that pierced the still night air, making it vibrate into a thousand echoes. It seemed as if it came from her very soul. Twice the cry was repeated, and then all was quiet again. She would lay another egg tomorrow.

Canada's estimated population is given at 8,835,000.

It Works Wonders
On Catarrhal Colds

Simple as A, B, C to Drive
Away Colds With
"CATARRHOZONE"

When your throat rattles, your lungs and chest are sore, your throat is stuffed with cold—don't fear consumption—use Catarrhzone and get well. It clears the throat, cures hacking, relieves tight chest, and soreness in the bronchial tubes. To clear away Catarrh of the nose nothing could be better. Catarrhzone is nature's own remedy—it heals and soothes—cures every form of throat, lung and bronchial trouble. Prescribed by many specialists and used by thousands every day. Get the dollar outfit; it lasts two months and is guaranteed. Small size, 50c; trial size, 25c; at all dealers.

Prairie Steers Bring Record Prices

H. A. Buck, of Abbey, Saskatchewan, recently marketed at Chicago a string of grade Aberdeen-Angus steers, right off the range, that brought \$15.40. The average weight of twenty head was 1,184. Mr. Buck has been using registered Aberdeen-Angus bulls on his range cows for some years, and had the distinction of beating the previous champion load by five cents a pound.

Twelve hundred retail lumber merchants in the three prairie provinces will co-operate with the soldier settlement board by giving soldiers who go on the land, wholesale prices for lumber required.

Oyster shells are being used extensively in the manufacture of Portland cement along the coast of the Gulf of Mexico.

The civil service employees of the Dominion number 41,619.

Minard's Liniment for sale Everywhere.

During the 1918 season of navigation, lake shipments of the wheat crop of 1918 from Fort William and Port Arthur totalled 50,565,345 bushels.

The Alberta government expects to spend \$1,667,173 during the current year on education.

Praise for Australians

Marshal Foch Sent Message of Appreciation to Soldiers

London. — Marshal Foch has sent the following message to the soldiers and people of Australia:

"The Australian troops have upheld the cause of the allies with magnificent dash. From start to finish they distinguished themselves by their qualities of endurance and boldness. By their initiative, their fighting spirit, their magnificent ardor, they proved themselves to be shock troops of the first order.

"In the grave hours of 1918, with their British, United States and French comrades, they barred the enemy rush. They stopped it, broke it, and at the appointed hour drove it far back.

"I am happy to express to Australia the undying memory which we shall cherish of her incomparable soldiers."

Signed at Same Desk

Berlin. — The agreement reached at Spa between the German and allied representatives regarding the use of the port of Danzig in connection with the return of Polish troops from France, was signed at the same desk at which Emperor William sat when he attached his name to the abdication agreement last fall, the Zeitung Am Mittag states.

After 10 Years of Asthma Dr. J. D. Kellogg's Asthma Remedy proved the only relief for one grateful user, and this is but one cure among many. Little wonder that it has now become the one recognized remedy on the market. It has earned its fame by its never failing effectiveness. It is earning it today, as it has done for years. It is the greatest asthma specific within the reach of suffering humanity.

Egyptians Form
Native Ministry

British Government Invites Deputation to Visit England

London. — Replying to a question in the house regarding the situation in Egypt Under Secretary Harmsworth stated that General Allenby's proclamation announced that as order had in great measure been restored, Egyptians wishing to leave the country would be free to do so.

It was understood that an Egyptian ministry was now being formed and that a deputation of ministers would visit England, in response to an invitation already twice given by the British government.

Replying to Mr. Wedgwood Benn, Mr. Harmsworth stated that he understood that General Allenby's proclamation included permission to come to England for persons originally debarred from that country.

An Oil of Merit. — Dr. Thomas' Electric Oil is not a jumble of medicinal substances thrown together and pushed by advertising, but the result of the careful investigation of the curative qualities of certain oils as applied to the human body. It is a rare combination and it won and kept public favor from the first. A trial of it will carry conviction to any who doubt its power to repair and heal.

Emile Cottin Escapes Death

Paris. — President Poincare has commuted to 10 years' imprisonment the death sentence imposed upon Emile Cottin, who, in an attempt to assassinate Premier Clemenceau on February 19 last, shot and severely wounded him. The commutation of sentence was on the recommendation of M. Clemenceau himself.

A SPRING TONIC GREATLY
INCREASES YOUR EFFICIENCY

Lay the Foundation of Good Health Now by Building Up Your
Blood and Strengthening Your Nerves

The good old fashion of taking a tonic in the springtime, like most of the customs of our grandparents, is based upon sound common sense and good medicinal practice. No matter how mild the winter it is a trying time, even in the most favored climates, for those who are not in rugged physical health. Many men, women and children go through the winter on reserve strength they have stored up during the sunny, summer months, and grow increasingly pale as the spring days approach. A tonic for the blood and nerves at this time will do much for such people, by putting color in the cheeks and banishing that tired feeling that worries thousands at this season of the year.

You can not be energetic if your blood is thin and weak, or if your nerves are frayed or shattered. You cannot compete with others if you do not get refreshing sleep at night, or if you are losing weight. You need a tonic at this time to add to your efficiency now, as well as to save you from suffering later on. And in all the realm of medicine there is no safer or better tonic than Dr. Williams' Pink Pills for Pale People. These pills make new rich, red blood, which circulates through every portion of the body, strengthening faded nerves and run-down organs, and bringing a feeling of new strength and energy to weak, easily tired, despondent men, women and children.

CURED BILIOUS HEADACHES

Mr. D. C. McClure, Hefley Creek, B.C., says: "As a spring tonic I know of nothing else that can equal Dr. Williams' Pink Pills. Last spring I felt weak and run down, and suffered a great deal from bilious headaches. I got a half dozen boxes of Dr. Williams' Pink Pills, and after taking them I felt like a new man. The last time from which I suffered had disappeared, I had a better appetite, and was in every way stronger and better than before I began the use of this medicine. Almost everyone needs a tonic in the spring, and for this purpose I can strongly advise Dr. Williams' Pink Pills."

NEVER FELT SO WELL

Miss Beatrice Bishop, Fendale, N.B., says: "I have never felt so well as I do since taking Dr. Williams' Pink Pills. When I began their use I was very much run down. I had no color, no appetite, could not go up stairs without stopping to rest on the way. I had frequent headaches and a feeling of despondency. I took Pink Pills regularly for about eight weeks and while I felt a benefit from them almost from the first, at the end of that time I was in better health than I had ever enjoyed before. I freely give you permission to publish this letter as my experience may be the means of pointing the way to new health to some other weak and run down girl."

GAINED WONDERFULLY

Mrs. Herbert Hanson, Lower Hainesville, N.B., says: "I have the very highest regard for Dr. Williams' Pink Pills. Before I began their use I suffered greatly with sick headache, dizziness and a feeling of depression and tiredness. A short treatment with the pills fully restored my health. My daughter Blanche was suffering from anaemia, and through the use of six boxes of Dr. Williams' Pink Pills gained wonderfully in weight, strength and general health. We think so much of Dr. Williams' Pink Pills that we are never without them in the house, and I consider them my best friend."

HAS A BETTER APPETITE

Mrs. M. D. MacLeod, Caledonia, P.E.I., says: "I have used Dr. Williams' Pink Pills as a spring medicine with satisfactory results. Before I began their use I was subject to weak spells, but these have now disappeared. I find that my appetite is better, and I have every confidence in your pills as a blood builder."

STRONG AND WELL AGAIN

Mr. H. H. McKelvey, Orono, Ont., says: "My experience with Dr. Williams' Pink Pills has been of the most favorable kind. At the time I began their use I was so weak and run down that I could hardly go about. My stomach was also out of order and the food I took did not seem to do me a bit of good. Then Dr. Williams' Pink Pills came to my rescue, and under their use my stomach grew better, my general health improved, and I was soon as healthy and vigorous a man as I had ever been. Dr. Williams' Pink Pills, with the use of Pinklets as a laxative when needed, is now our family medicine, and we would not be without them."

BUILD UP YOUR BLOOD

The purpose of Dr. Williams' Pink Pills is to build up the blood. They do this one thing and they do it well. They are, for this reason, an invaluable remedy in diseases arising from bad or deficient blood, such as anaemia, rheumatism, neuralgia, pains in the back or side and the after effects of influenza or fevers. If you are suffering from any troubles due to weak, watery blood, or shaky nerves, a fair use of these pills will restore you to full health and strength. Dr. Williams' Pink Pills are sold by all medicine dealers or will be sent by mail, post paid, at 50c a box or six boxes for \$2.50 by The Dr. Williams' Medicine Co., Brockville, Ont.

A great deal of discussion has taken place all over the West for same years, especially since the termination of the war, over either a big reduction in or the complete elimination of the tariff. The following figures will be of great interest to all, and they should help to give a better understanding of this great question: The Provinces of Ontario, Quebec, Nova Scotia and New Brunswick were in eleven months of the year 1918 paying duty on goods entered for consumption to the amount of \$406,000,000 in round figures, the Provinces of Manitoba, Saskatchewan, Alberta and British Columbia were, in round figures, paying duty of goods valued at \$86,000,000. The one Province of Ontario, that is the people therein, paid duty for that term of months on \$250,000,000 of foreign products, while the four western Provinces were paying duties on \$86,000,000. The city of Toronto alone imported goods, for the use of everyone, including materials which were incorporated into manufactures, many of which would then be shipped west during the month of February, 1918, to the value of \$5,708,510, while the whole Province of Manitoba imported goods valued at \$2,221,367. The entire importations of dutiable goods into the four Provinces in February came to \$6,464,990, which is only \$756,480 in excess of the figures of one eastern city by itself, namely, Toronto. One city in Quebec, that of Montreal, paid duties on \$6,436,648, and this sum very closely approximates that of all the western Provinces combined.

Notes from Overseas

Japan may refuse to sign the covenant of the League of Nations because their demands for equality of nationality has been dropped owing to the opposition of the United States.

A cable has been received by the Russian consul at Vancouver that Russia is now closed to intending immigrants and no person can now consider that they have proper permission to start their journey for Russia, no matter what documents they hold.

The following notes were received in Didsbury last week from a member of the 50th Battalion, which has been camping a short distance from Brussels since the Armistice:

"We are still in the same place, but not doing much of anything, which makes the time drag. We had hopes of getting out of here this month, but at the present time it looks like another month or two.

We had a flu scare the other week, which lasted only a few days and is now forgotten. While it lasted the cinemas and dance halls were closed and the church service was held in the open.

I am arranging to demobilize in the East, probably Toronto, as an order came through a few days ago allowing a month's stopover to visit relatives before returning West, and several Calgary boys will take advantage of it.

We are starting to get busy, for an inspection is coming off on the 20th by the King of Belgium, which means we must be shined and polished to perfection. However, it helps to pass some of the time away, so we will give him a good reception and show what Canadian soldiers look like when out of the fighting line."

**A tractor that will fit your farm—the Fordson**

YOU can make your farm produce more—at less cost—and with less effort on your part—by using the Fordson tractor. Not only will it help you prepare your land and cultivate the crops, but it furnishes power for many other farm jobs.

The Fordson tractor is the result of long study of farming conditions and it has proved a success. Burns kerosene—easy to operate and care for—practically trouble-proof.

There's an Oliver No. 7 Plow for your Fordson

Just as the Fordson tractor gives ideal power, the Oliver plow means ideal plowing. It is scientifically designed for tractor service—and is backed by a half century of experience in making plows. It buries all trash and weeds at the bottom of the furrow—maintains an even depth of furrow—and is controlled from the tractor seat.

Come in and let us show you this remarkable farm team.

We also can supply you with all kinds of

Farm Implements
Ford Cars and Repairs, Hardware
and anything you want from a needle to an engine

A Good Motto to Remember

(Farmers cut this out)

Careful Straining and proper Cooling of Milk in water at this time of year is very essential to guard against loss. Both Dairymen and Manufacturers take big chances of loss if the Milk is not cooled just as carefully during winter months as in the summer. Do not trust to weather conditions. The Milk will not cool in the centre of the can fast enough to prevent high acidity unless proper stirring is applied.

Crystal Dairy Ltd.

A. R. KENDRICK, Manager

Ex-Kaiser Will Be Brought To Trial

Paris. — The responsibility of the German emperor for the war and the means for bringing him to trial by one of the allied governments, probably Belgium, had been definitely decided upon by the council of four. This follows the definite decision on the terms of reparations for war damages, whereby \$5,000,000,000 must be paid within the next two years, and an inter-allied commission assess the remaining damage for a period of thirty years, beginning May, 1921.

Thus, two of the great obstacles which stood in the path of the rapid attainment of peace have been removed, and the period of extreme tension over the inaction and the failure to secure tangible results is succeeded by revived confidence over the great advance towards a permanent settlement.

The council of four has reached an agreement on the Saar valley. The valley unchanged but accords to agreement leaves sovereignty over France free of duty sufficient coal for the Lorraine iron industry and to replace the production of the mines destroyed in the Lens mining district, with the privilege to the Germans of restoring Lens mines and thus relieving the Saar valley of that charge.

This agreement removes one of the most difficult obstacles to the conclusion of peace.

While the tension has been greatly reduced, it is not entirely removed, as much depends on the continuation of progress with respect to the remaining obstacles, notably the Saar valley, the Rhine frontier, the Adriatic issue, and a number of lesser issues which are still short of final agreement.

The agreement on responsibility for the war issue continued to have called for compromise between divided reports presented by the commission, of which Secretary Lansing is chairman. There was a practical agreement on the general responsibility of the German emperor for bringing on the war, but division occurred as to whether it was feasible to bring him to justice before an international tribunal.

Huns Cannot Pay For Food

Berlin. — The shortage of coal, owing to strikes, is given officially as the reason for Germany's inability to continue payments for entente food supplies now arriving, since coal was chiefly relied upon as a means to settle this indebtedness. The announcement adds that coal production continues to falter, preventing the manufacture of articles wanted abroad. "German economic life must collapse before autumn, and the food condition will be worse than ever."

Why Can't I Get To Sleep?

Thousands of people all over the country ask this question, but still continue to toss night after night on a sleepless bed, and it is impossible for them to get a full night's refreshing sleep.

Some constitutional disturbance, worry or disease has so debilitated and irritated the nervous system that it cannot be quietened except by the pernicious use of opiates or narcotics. Or again, you have heart palpitation, and sensation of sinking, a feeling you are going to die, or perhaps you wake up in your sleep feeling as though you were about to choke or smother, and the only way you can get relief is to sit up in bed.

To all who suffer in this way, Milburn's Heart and Nerve Pills offer an inestimable boon. They bring back the much-needed night's rest by improving the tone of the nerves, strengthen the heart, enriching the blood and making the whole organization act in harmony—then you sleep as peacefully as a child.

Mrs. Jas. Latimer, 39 Leinster St., St. John, N.B., writes:—"At night I could not sleep. I had to sit up in bed, my heart beat so fast, and when I walked up stairs I would get all out of breath. A friend recommended Milburn's Heart and Nerve Pills and after using two boxes, I can sleep all night and am not out of breath after walking."

Milburn's Heart and Nerve Pills are 50c a box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Hungary Can Pay Debts

Paris. — The mission to Hungary headed by General Jan Christian Smuts, has reported on the prospect of the payment by Hungary of her debts. The impression gained by the commission, the report stated, was that there might be some chance of adjustment through friendly negotiations. Otherwise, it was added, it was difficult to see any chance whatever.

Huns Demand More Food

Say They Cannot Continue Payment in Gold

Paris. — At a conference of the German and allied financial experts at Pont Sainte Mayence, the Germans demanded fresh consignments of food, and announced that it would be impossible to continue payments in gold, says a Havas dispatch.

In order to increase their gold reserves, they proposed to issue large loans in neutral countries, explaining that Germany's lack of freedom for commerce prevents the defraying of the cost of food.

Veteran Tells of a Terrible Experience

Before He Found Relief in Dodd's Kidney Pills

Postmaster of Hereford Points the Way to Health to Other Sufferers From Kidney and Bladder Trouble Hereford, Que., April 14, (Special). — Mr. A. Peabody the veteran postmaster here, is one of the many old people who claim to have received a new lease of life through the use of Dodd's Kidney Pills.

Mr. Peabody is in his 84th year, but wonderfully strong and active for one of his age. But he was not always thus. "For six years," he says, in telling his story, "I suffered from kidney and bladder trouble. I had those sharp, stinging, lightning pains through my muscles, even to my finger tips."

"In March, 1917, I was taken with a shivering chill and deathly pains through my abdomen, groins, and the small of my back. I was confined to my bed for three weeks, during which time I often had to get up as often as twenty or thirty times a day."

"I tried many remedies, but got little benefit till I tried Dodd's Kidney Pills. In three days I got relief, and three boxes cleared all the pains out of my system. I also rest much better at nights."

"I am always glad to tell other sufferers from kidney and bladder trouble what Dodd's Kidney Pills did for me."

Ask your neighbors about Dodd's Kidney Pills.

Growth of British Navy

Over Two Million Tons of Shipping Added to the Fleet Since 1914

London. — More than 2,000,000 tons of shipping were added to the British navy during the war at a cost of between £250,000,000 and £300,000,000, according to a statement by Sir E. H. W. Tennyson-D'Eyncourt, director of naval construction at the admiralty.

After the battle of the Falkland Islands, the statement says, the design of the Renown and Repulse was changed from battleships to battle cruisers, the value of battle cruisers having become apparent. The famous "hush" ships, the Courageous, Glorious and Furious, were designed to wipe out German light cruisers and raiders. They carried 15-inch guns and steamed 32 knots an hour.

During the war 300 destroyers, 100 mine sweepers and 12 new types of submarines were added to the British fleet.

Death Toll in Southern Storm

Dallas. — The worst equinoctial storm for many years swept over Texas and south Oklahoma last Tuesday, leaving in its wake 68 deaths, hundreds injured and property damage which will amount to many thousands of dollars, according to incomplete returns received here.

Twenty-eight of the known dead were white persons.

Brazil and Britain Sign Treaty

Washington. — Advice from Rio Janeiro to the state department reports that an arbitration treaty has been signed by Brazil and Great Britain.

A CHILD GETS CROSS, SICK AND FEVERISH WHEN CONSTIPATED

Look, Mother! If tongue is coated clean little liver and bowels.

If your little one's tongue is coated, it is a sure sign the stomach, liver and bowels need a gentle, thorough cleansing at once. When your child is cross, peevish, listless, pale, doesn't sleep, eat or act naturally; if breath is bad, stomach sour, system full of cold, throat sore, or if feverish, give a teaspoonful of "California Syrup of Figs," and in a few hours all the clogged-up, constipated waste, sour bile and undigested food will gently move out of the bowels, and you have a well, playful child again.

Sick children needn't be coaxed to take this harmless "fruit laxative." Millions of mothers keep it handy because they know its action on the stomach, liver and bowels is prompt and sure. They also know a little given today saves a sick child tomorrow.

Ask your druggist for a bottle of "California Syrup of Figs," which contains directions for babies, children of all ages and for grown-ups plainly on the bottle. Beware of counterfeits sold here. Get the genuine made by "California Fig Syrup Company."

Offers To Help Hungarians

Samelli Will Send an Army to Assist Bolsheviks

Paris. — Nikolai Lenin, the Russian Bolshevik premier, has sent M. Samelli, of the school of propaganda, of Moscow, as a delegate to Budapest. Advice reaching Paris states that Samelli has advised the Hungarian foreign minister, that the Bolsheviks will send an army of 150,000 to assist the Hungarian Bolsheviks.

The Jugo-Slav press bureau here announces that the Belgrade government has rejected a demand of the allies intended to obtain the co-operation of a large Jugo-Slav army against the Hungarian communist government. The refusal, it is added, was made on the ground that the allies have not yet recognized Jugo-Slavia.

The mission to Hungary, of which General Jan Christian Smuts is the head, has returned to Paris and confirms press reports that complete nationalization is a practical Bolshevik rule.

The members reported that the de facto government was well installed and said that during the conference with the mission, it showed an obvious disposition not to quarrel with the allies, but rather to meet them amicably on all questions, consistent with the nature of the Bolshevik regime.

Government Denounces Strikers

Germany Will Regard Strike As Breach of Contract

Berlin. — The threat of railroad employees to add to Germany's troubles by striking has brought a sharp reply from the government in which such action is denounced as "a crime toward the entire people." Assurance is given that the would-be strikers that a strike "will be regarded as a breach of contract and will be punished accordingly."

The government statement appeals to railroad men to "remember it spent billions for them at the expense of less fortunate employees" and declares that the government would be "conscienceless were it to permit railroaders to injure the people by stopping transportation in these days of shortage of food, raw materials and hunger."

It is pointed out that a stoppage of the entire industry of the country would be inevitable and that the employees would not only endanger their own position but that of their wives and children.

Leads in Linseed Production

Argentina leads the world for linseed production, cultivating about 3,000,000 acres annually as compared with 2,000,000 acres in the United States and 1,000,000 in Canada.

Fall of Odessa Will Aid Bolsheviks

U. S. Credit to Belgium

Washington. — Credits of \$6,330,000 to the Czech-Slovak republic and \$900,000 to Belgium were established by the treasury. The Belgian credit raised the total loans to the allies to \$9,016,229,000, and the total to Belgium to \$341,435,000.

Must Agree to League Terms

Germany Will Become Member When Faithfulness is Assured

London. — The difficulty of putting the text of the covenant of the league of nations in the peace treaty that Germany is to sign, if Germany is not a party to the covenant, which she, by her signature accepts, says the Paris correspondent of the Westminster Gazette, has been cleared up by a skilful piece of draughtsmanship. The covenant, as it will appear in the treaty, is so worded that while the existence and jurisdiction of the league will be recognized by Germany, that country will not be immediately received as a member. She will, however, express her full accord into the constitution of such a body, and will agree to abide by its decisions.

SUFFERING CATS! GIVE THIS MAN THE GOLD MEDAL

Let folks step on your feet hereafter; wear shoes a size smaller if you like, for corns will never again send electric sparks of pain through you, according to this Cincinnati authority.

He says that a few drops of a drug called freezone, applied directly upon a tender, aching corn, instantly relieves soreness, and soon the entire corn, root and all, lifts right out.

This drug is a sticky ether compound, but dries at once and simply shrivels up the corn without inflaming or even irritating the surrounding tissue.

It is claimed that a quarter of an ounce of freezone obtained at any drug store will cost very little but is sufficient to remove every hard or soft corn or callus from one's feet. Cut this out, especially if you are a woman reader who wears high heels.

The highest telephone system in the world is installed at Sonata, Bolivia, 15,000 feet above sea level.

Paris. — The chief cause of anxiety in connection with the evacuation of Odessa by the allies and its occupation by the Bolsheviks lies in the fact that most fertile regions in southern Russia have fallen into the hands of the Bolshevik forces, giving them immense resources of grain, coal and minerals.

The reason for the allies' retirement was the constantly increasing menace of the Bolshevik soldiery against the allied garrison, which was able to maintain its supplies with greatest difficulty. The commander thereupon decided to withdraw his troops, numbering approximately 50,000. The troops retired to Rumania and Constantinople.

The situation in Rumania and Poland is far from reassuring, even with these additional troops to help form a cordon against the spread of Bolshevism. Both Rumanians and Poles require the largest measure of aid from the allies providing them with food, military equipment and organization. It is regarded as essential in competent quarters that General Haller's Polish divisions should be hurried eastward as soon as possible, for, otherwise, it is pointed out, there is a possibility of the formation of a great Bolshevik block consisting of Russians, Hungarians and Germans, which would be so powerful that immense forces would be required to resist it.

Statesmen of various countries gathered in Paris, discussed the Odessa question with considerable inquietude and it was explained that it would form the subject of discussion among the delegates to the peace conference.

It was remarked in semi-official circles that reports received from Russia previous to the evacuation of Odessa had shown Bolshevism there to be on the down grade, owing to the gradual exhaustion of funds and lack of supplies. But the acquisition of Odessa and surrounding districts by the Bolsheviks has given them a new lease of life and placed in their power the means to crush, temporarily at least, the rising strength of those groups who are contesting most vigorously the Bolshevik progress.

London Will Observe Anzac Day

London. — On Anzac Day, April 25, there will be a triumphant march of Australian troops through London. The detachment will number 5,000 men, who will march from the West End, passing the Mansion House, where the Lord Mayor will take the salute.

Colds, Coughs and Grippe

BY DR. SAMUEL HAMILTON

Commonly the first symptom of a cold is a chilly feeling, accompanied by sneezing or a tickling in the throat. The most frequent causes are getting wet or cold feet, or going from hot rooms suddenly into cold ones, catching cold from contact with other persons in crowded street cars or assembled. Frequently there is an inner cause, namely, the stagnation of the blood, caused by constipation or biliousness. No one ever takes cold unless constipated or exhausted, and having what we call mal-nutrition, which is attended with impoverished blood and exhaustion of nerve force. There is a continual absorption of poisons into the system, unless the entire intestinal tract is kept clear and clean as possible. For this there is nothing better than Castor Oil, or a vegetable extract of May-apple, aloes, jalap, rolled into sugar-coated pills, and sold in every drug store as Dr. Pierce's Pleasant Pellets. It is the common practice of every doctor in the land to give a good purgative in any case where he cannot be sure of what will develop. The first thing to do as every one should know is to "clean house." For the cough there is nothing better than the old Golden Medical Discovery, a botanical extract which Dr. Pierce put on the market fifty years ago. This contains no alcohol but does contain wild cherry bark, cohosh, Oregon grape root, and other botanical extracts which are not only good for the system, but check the cough, and this is the very best alternative and tonic that I know of to take for the grippe, as it offers a scientific method of treating the blood by improving the nutritive functions of the patient. The "Medical Discovery" accomplishes this by first restoring the enfeebled digestive organs, so that food—the natural tissue builder—will be digested and taken up and assimilated by the system. There is nothing better for diseases of the stomach, lungs and blood than this old remedy which every druggist keeps in liquid or tablet form.

We wish to draw your attention to Our Ready-to-Wear Dept.

which is becoming the big end of our business. We specialize in

Children's Dresses, 2 to 14 years, also Middies 2 to 14 years.

Large range of Ladies' House Dresses, Overall Aprons, Middies, Wash Skirts and Blouses.

Don't Put It Off Any Longer-- That New House

If you have thought of building a new home during the past four or five years, you surely need it by this time, and it should be made the big part of your year's building program.

Farm life is too strenuous these days to neglect having a real home; one equipped with plenty of room for every member of the family, and planned and arranged to make the work easy, and the home life is not only comfortable but attractive.

BUILD IT THIS SPRING

so that you can make this year the record breaker on your farm for results.

Let us show you some really fine farm-house plans—we have a lot of them. If none of them are exactly what you want, we will make plans to fit your farm and family.

THIS SERVICE IS ALL FREE

and we will furnish material for the job at as low a price as you can get good stuff for anywhere.

**Municipal District of Westerdale
No. 311**

In the matter of the Court of Confirmation of the Tax Enforcement Return of the Municipal District of Westerdale No. 311.

Take notice that a Judge of the District Court of the District of Calgary, will, at the sittings of the Court on

**Wednesday the 4th day
of June, 1919**

at 10 o'clock in the forenoon in the Court Room, at Didsbury confirm the Tax Enforcement Return of the Municipal District of Westerdale No. 311. Dated at Didsbury this 21st day of March, 1919.

A. McNAUGHTON,
Sec.-Treas.

ROSEBUD ITEMS

(Too late for last week's issue)

John Troyer of Castor, who has been visiting with his brother, Sam Troyer, left on Friday morning.

The Misses Alberta and Ada Shantz left on Thursday for Calgary to visit friends.

Mr. and Mrs. C. S. Chapin and family have moved near the Mower school house. They expect to move north in a few months.

Wendell Gochee has been working at the Dave Irwin home.

Mr. and Mrs. John Decker have moved north of Olds.

The ladies who were present at Sam Troyer's sale report having a fine time and a delicious lunch.

AROUND THE TOWN

Mr. E. Rietzel, who has been located at Vulcan, is home on a visit.

Ed. Pirie of Senlac, Sask., is visiting friends in town for a few days.

George F. Smith is building a residence for himself on Liesmer street.

L. B. Fulkerth has sold his fine imported Percheron stallion "Jama's" to Ed. Schmidt.

Mrs. A. Butts and Mrs. Good will have charge of the Red Cross tea room on Friday afternoon.

"No beer, no work, may sound striking, but it will come up against the much older law, no work no work."

A new automobile garage is to be built on the lots north of the Union Bank by Messrs. Ezra Berscht and Wm. Vanhorne.

Pte Rex Dolman and his bride from England, returned about ten days ago and are visiting friends in the district. Welcome home.

Remember, Friday is a public holiday (Good Friday) and all stores and banks will be closed, and the Post Office only open after the immediate arrival of the trains.

W. Durrer has purchased the lots opposite the fire hall and is making some good improvements. He is preparing to instal a motor hearse, for which he will have a garage at the back of these lots.

The many friends in the district of Mr. and Mrs. O. W. Hembling, who who are now living near Vernon, B.C., will be pleased to learn that a fine little baby girl was born to them on April 3rd.

During the past week or more seeding operations have not made much progress owing to some snow storms, but no one is complaining, for it is adding more moisture to the soil, which was very much needed.

Don't forget the public examination at the schools today (Thursday) and the programme tonight. Guests are asked to be at the school at 1.30 in the afternoon, and the evening's programme will commence at eight.

M. W. Thompson, one of our old Didsbury friends, who is now living at Los Angeles, in a letter to the editor wishes to be remembered to to all the "old" boys left and sends good wishes for their welfare.

Lieut. A. G. Batt, of the 49th Battalion, Edmonton, and Mrs. Batt, are visiting with Mr. and Mrs. E. G. Reitzel for a few days preparatory to their departure for Sheffield, England, where they will make their home.

The number of cases of flu at Bow Island has increased so rapidly that the medical health officer has put the ban on all public meetings. A number of cases are of a serious nature. Central Alberta will be fortunate if it escapes another visit of this epidemic.

The Ladies' Aid of the Evangelical Church will hold an Easter sale of fancy work and home-made cooking; also cut flowers, ferns and lilies, on Saturday, April 19th, at 2 p.m., in the Leuszler block. Lunch will be served, also ice cream and cake. 2w

NOTICE—All interested in having blacksmith work done, please bring it in early in the week, and we will do our best, as we have always tried to do in the past, to have it all attended to by noon on Saturday.—D. M. SINCLAIR, sec.-treas. Didsbury Local. 2e15

Pte. Geo. Young, brother of Charlie Young, west of the town, arrived at St. John on Thursday last, according to a telegram received by Charlie. George is recovering from his wounds and will put in a week or two visiting friends and relatives in Ontario before returning west.

The man who sends his money away for goods which may be purchased at home, providing he can get anything near the same value, is really injuring the town and decreasing the possibilities of himself and his neighbor continuing in work. Prosperity depends upon a steady and ready circulation of money, and that cannot be had if it is sent away to build up other places.

The monthly meeting of the Woman's Institute was held under Mrs. H. W. Chambers' hospitality on Thursday, April 10th, twenty-three members being present. Plans were completed for the rest room and it will be ready for use May 1st, in Mrs. Stevens' building. Lawyer Freeman gave an instructive address on "The Rights of Woman in Alberta." Mr. Freeman remarked that woman evidently mean business, judging by the questions that were asked.

NOTICE

Hunsperger gravel and sand pit south of town is now controlled by Isaac Hunsperger, phone 304, Didsbury. No person is allowed to use this pit without permission from Mr. Isaac Hunsperger. Wm. Hunsperger, Owner. 3p13
